

## VISION

In the next 10  
years, I will reach

 1000000

## UNREACHED PEOPLE

They are people of all races, all ages, different ethnic groups, and across all professions who are enslaved by sin and have not encountered the power of the gospel and live for themselves, not the Lord Jesus.

## BUT THROUGH THE GOSPEL

They will begin to embrace the saving gospel and live transformed lives for the glory of the Lord. They will be disciples of Jesus Christ, planted in a local church and able to share their faith with boldness in their context. They will stand for God in all respective spheres of life.

I COMMIT

this vision to God  
for His Glory

## DESIRABILITY

For those we share the Gospel with in the next 10 years

## TO BEST SERVE THEM

I am going to engage church leaders to do local church outreach, train harvesters for one on one evangelism, neighborhood evangelism, city to city, and village-to-village mass open-air crusades. I will organize special meetings for business people, young professionals, and schools to win them to Christ. I am going to start a platform on social media to reach out to the lost through evangelism messages and films.

## CONNECTING WITH THEM

Through relational evangelism, neighbourhood evangelism, local churches outreaches, mini and mass open air crusades, and reaching people of the same interest like business people, young professionals, etc. Through social media platforms, short godly family-oriented films, articles, and community service projects such as handing out school uniforms and shoes, sanitary towels, or boreholes for needy communities.

## WE WILL OVERCOME

The challenge or barrier of lack of a godly voice and leadership. Greed, corruption, and lack of moral compass, which then ends in exploitation and abuse. Lack of access to education and downplaying the significance of spiritual awareness.

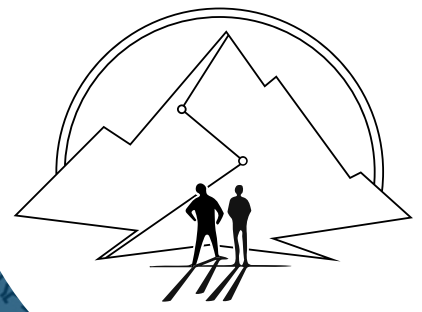

## SO THEY CAN EXPERIENCE

A future where life is meaningful, presenting a loving and peaceful atmosphere. Where ordinary human life on the ground is respected and community leaders lead with integrity. Where the godly image, purpose and hope is restored. A future where hostility is bridged and peace reigns. Where there are joyful relationships, employment opportunities, access to basic needs, and minimum criminality.

I ENTRUST

this strategy and these people to Christ

## FEASIBILITY

In order to put this strategy into practice, I will need...

## TO GROW MY STRENGTHS IN

The areas of ministering to people of foreign countries, business people and government leaders, filmmaking, social media content creation, and production. Developing a deeper understanding of different worldviews and creating a more profound knowledge of ministering to other worldviews.

## SUPPORTED BY FRIENDS LIKE

My local church and other local churches could support the vision, and several believers who are in businesses could also help. Other believers who are passionate about the harvest could support it.

## TO ADVANCE THE WORK BY

Starting by praying for this strategy, build a team of volunteer workers. Making short-to-long evangelism plans, vision-casting, and fundraising initiatives to acquire appropriate equipment and prioritize biblical financial principles. Collaborate with like-minded.

I PRAY

for the Holy Spirit's discernment

## SUSTAINABILITY

To ensure this plan can grow into the future...

## WE MUST ACCOUNT FOR

Studying and praying for every targeted audience by dedicating at least 8 hours per week. Recruiting skilled people in media, technology, marketing as volunteers and meeting every fortnight to brainstorm and plan the activities of this strategy. Raising funds outreach equipment, media equipment and other logistics.

Attend more training and workshops that will sharpen our skill.

## AS WE CELEBRATE

Greater harvest of souls reaching 1 million in a specified period. Filling churches with disciples who stands for the gospel truth. More transformation in people's lives, mindsets, and social conditions. Having outreach and media equipment and all necessary logistics.

I BELIEVE

in God's provision  
for this vision
